6 KEY MEASUREMENT PRINCIPLES

6.1 In measuring any of the criteria in the Employment Equity scorecard, the principles contained in the Employment Equity Act will apply and any reporting to the Department of Labour may be used as a basis for the purpose of reporting in terms of this statement. Data and facts may however be collated afresh for BEE planning and verification purposes. For the purposes of measurement and reporting:

6.1.1 the percentage of black people at each of the Occupation Levels relevant to the Employment Equity scorecard as well as the percentage of black people with disabilities may be based upon the applicable statistics contained in the Measured Entity's EEA9 and EEA10 forms as contemplated in the Employment Equity Act or may be collated in accordance with the guidelines set out in those forms; and

6.1.2 claims in respect of black people with disabilities may be supported by a duly completed declaration as contemplated in the Measured Entity's EEA1 form as contemplated in the Employment Equity Act.

6.2 Notwithstanding the aforegoing, any Measured Entity not subject to the applicable provisions of the Employment Equity Act shall be required to compile the statistics contemplated in the Employment Equity scorecard using the guidelines set out in the Employment Equity Act for the purposes of this statement.

7 MEASUREMENT OF THE EMPLOYMENT EQUITY CRITERIA

The different indicators of employment equity in the scorecard are calculated on the following basis:

\[ A = \frac{B}{C} \times D \]

Where

\( A \) is the score achieved in respect of any given criteria as referred to paragraphs 5.1.1 to 5.1.6.

\( B \) is the percentage of category of black people being measured

\( C \) is the percentage compliance target in respect of that criteria

\( D \) is the weighting points allocated to the applicable criteria being measured.
